INTOS Lab Solutions

At INTOS Lab Solutions, we take pride in our extensive knowledge and our position as a leading supplier of laboratory furnishings.

We go beyond mere supply — we act as project manager, consultant, sustainable maintenance manager, and main contractor for turnkey solutions. Our services and products are available to a wide range of organizations, from biotech and pharmaceutical companies to educational, healthcare, and high-tech institutions. We understand the specific requirements of each sector and deliver customized solutions that meet high standards. Additionally, we offer excellent service and maintenance through our nationwide operating team.

Our team values a personal and flexible approach tailored to your needs, which uniquely sets us apart.

Why choose INTOS Lab Solutions?

- ▶ Total supplier of laboratory furniture and equipment
- ▶ Short lead times due to deliveries from our own stock
- ▶ Option for fully customized solutions
- ▶ Expertise, flexibility, and dedication
- ▶ Maintenance and service for a sustainable laboratory

Our personal and flexible approach, tailored to your wishes, sets us apart in a unique way.

How we work

In a laboratory environment, every user has their own work method and corresponding needs. INTOS Lab Solutions offers modular standard interior solutions with various bases, to which elements can be flexibly added, removed, or repositioned. This allows the interior to be tailored to the individual needs of the user while maintaining a uniform appearance. These solutions are adjustable in shape, size, and color.

This way, a laboratory can be set up completely, from height-adjustable tables to storage cabinets and from fume hoods to accessories. In every setup, INTOS Lab Solutions ensures detailed finishing and considers the required media and installation needs.

With the expertise within INTOS Lab Solutions, we can also provide advice. This advice can relate to the construction and renovation of laboratories, drafting a requirements program, creating a design sketch (including 3D visualization), and the full realization of the laboratory.

Important steps when starting a project:

- ▶ Inventory of customer needs
- ▶ Setup of phasing and preparation of a quotation
- ▶ Implementation process
- ▶ Delivery
- ▶ Start of maintenance process (SLA)

Greenlab Service

For many companies, designing or renovating a laboratory setup is an exceptional and complex endeavor. The materials used are often robust and last for decades. However, new research, expansions, downsizing, or the acquisition of new equipment can necessitate changes in the layout. Therefore, INTOS Lab Solutions has introduced the Greenlab Service.

With this service, INTOS Lab Solutions takes care of restoring, maintaining, renovating, dismantling, relocating, and moving existing laboratory setups, regardless of the original supplier. This also includes the relocation of fume hoods and safety cabinets along with their associated validation. This approach not only results in cost savings on materials for new furniture but also significantly contributes to sustainability goals.

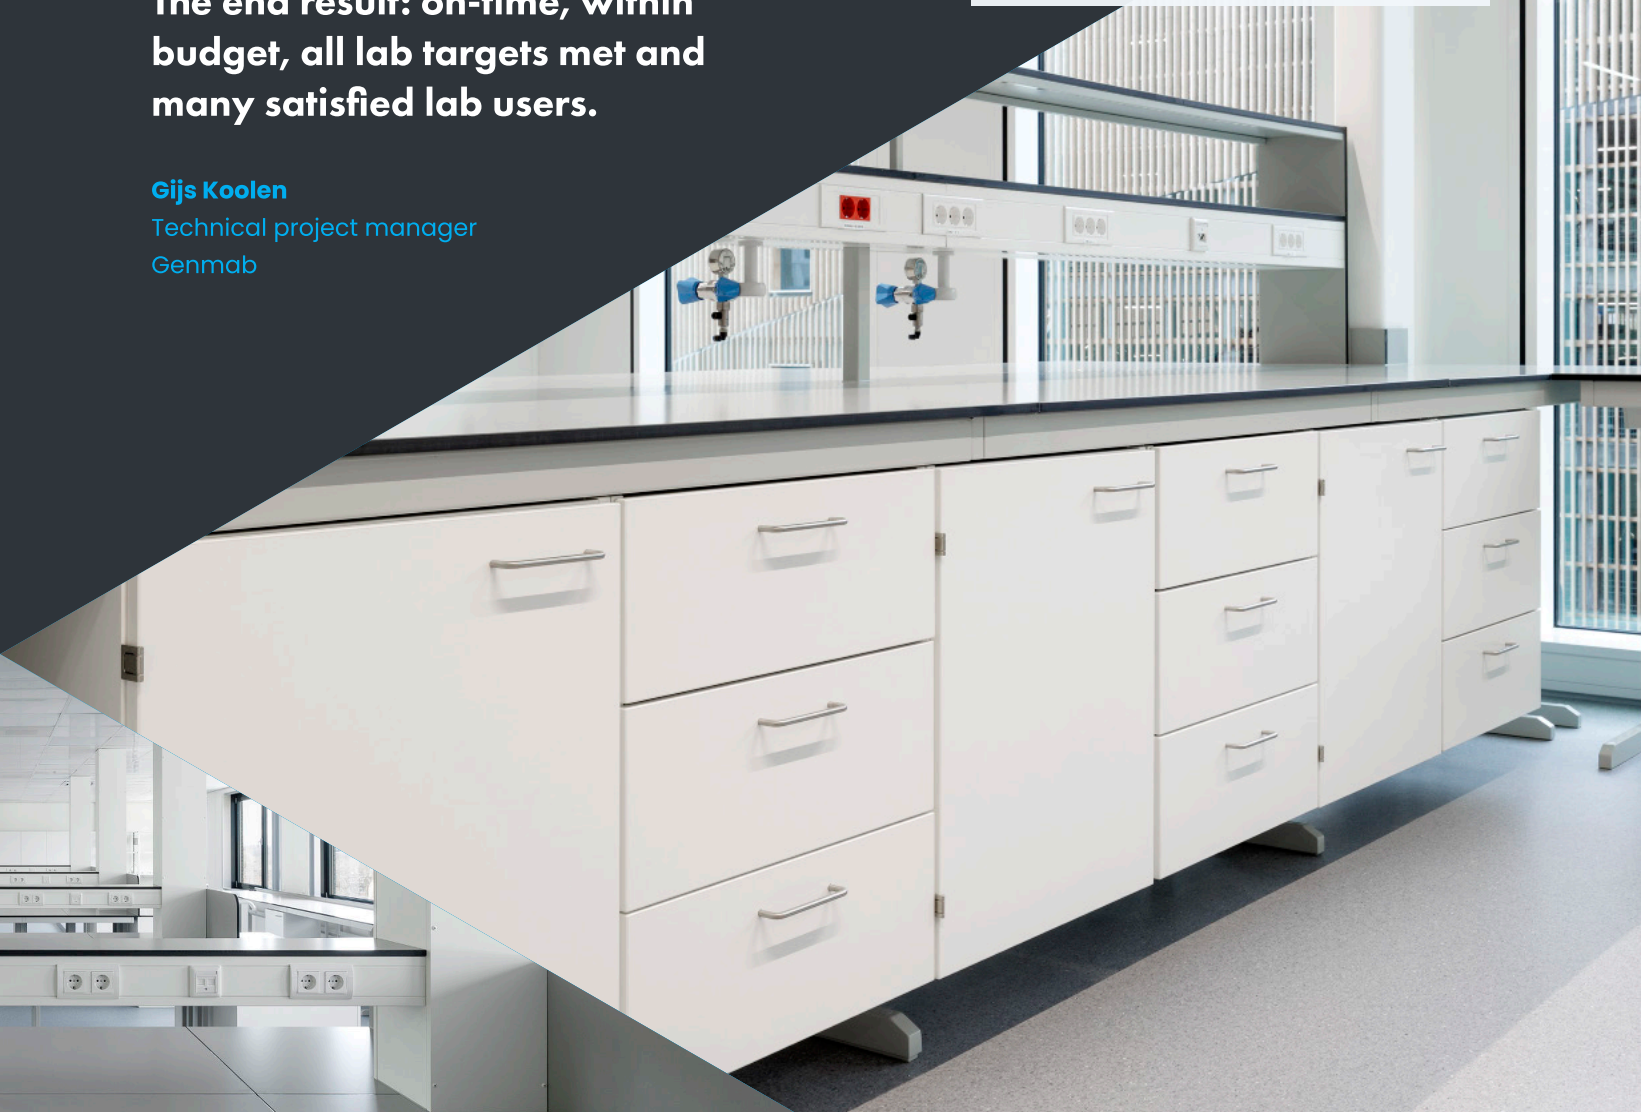

Sustainability lives at INTOS.
The end result: on-time, within budget, all lab targets met and many satisfied lab users.

Laboratory tables

INTOS Lab Solutions offers flexible laboratory tables with H-, C-, and T-frames. Tables with T- and H-frames can be converted into height-adjustable systems. For fixed setups, there are plinth-mounted furniture pieces that rest on modular base cabinets. All furniture is suitable for both wall and island configurations and is available with various types of base cabinets.

Cleanroom furniture

Our range of cleanroom furniture includes standard solutions in various materials, often solid core in combination with stainless steel 316. At INTOS Lab Solutions, we value high quality and ease of use, supported by expert advice. For optimal space utilization, we also offer custom solutions.

Intosafe fume hood

The INTOS Lab Solutions fume hoods are designed to meet the highest standards, such as the NEN14175 and NRP4500 guidelines. Additionally, we offer validation services for our fume hoods. Our various models of fume hoods are designed with ease of use as a priority and can be easily expanded with additional options. Besides the standard Intosafe fume hoods, INTOS Lab Solutions also offers two special models, the Walk-Intosafe and the Table-Intosafe.

Cabinets

Storage is essential in laboratories and cleanrooms, but there are various needs. INTOS Lab Solutions offers a wide range of solutions, including hanging under-table cabinets, mobile base cabinets with doors or drawers, tall cabinets with or without glass, narrow pharmacy cabinets, and flow cabinets. Our cabinets can be fully customized to meet your needs.

Media solutions

Our furniture is suitable for both wall and island configurations, with cords, cables, and other media neatly concealed. The tables can be equipped with media bridges, troughs, and columns, which we fully install with electricity and gases.
